

Sleep Fellowship

UCSF Sleep Medicine Fellowship

The UCSF sleep medicine fellowship is a one year fellowship. It is a joint effort between the San Francisco VA and UCSF and the fellows will work at both the SFVA and UCSF campuses. The fellowship includes training in both pediatric and adult sleep medicine with a focus on the following disorders: obstructive and central sleep apnea, insomnia, restless leg syndrome, circadian rhythm disorders, parasomnias, narcolepsy, and excessive daytime sleepiness.

UCSF boasts a wide range of sleep research and fellows are encouraged to become involved during their clinical training year.
